SPOT CLEANING

Test cleaning method on hidden section first

Treat spills and stains as soon as possible:

Gently remove soil or mop any liquids from the surface of the fabric. Do not scrub.

Apply dry cleaning solvent strictly according to instructions. Do not saturate the fabric with water or other cleaning liquids. If further cleaning is needed, professional use of dry-cleaning or hot water extraction machines is recommended

BLEACH CLEANING 1:10 solution recommended

SUSTAINABILITY

We strive to follow principles of sustainability through all our business activities and the entire process from weaving to production. We print locally to order and only use water-based inks and recyclable bi-products. We regularly research the latest developments in sustainable textile production to ensure we are using all available innovations to reduce the environmental impact of both our production and products.
